## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 - 23 are drawn to communication quality control, classified in class 455 subclass 67.13.
  - II. Claims 24 – 25 are drawn to interference compensation of prevention, classified in class 455 subclass 63.1
2. The inventions are distinct, each from the other because of the following reasons:  
Group I is directed towards communication quality control and Group II is directed towards interference compensation or prevention. Because these inventions are distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of there different classification, restriction for examination purposes as indicated is proper.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to RAYMOND S. DEAN whose telephone number is (571)272-7877. The examiner can normally be reached on Monday-Friday 6:00-2:30.
